Pheeew.

A smoothie for your gut.

Prepared by Alex Kim, Jason Ko, Dawon Kim
Founders · Pheeew, Inc. · Delaware
April 2026

PRODUCT

100mL puree pouch · synbiotic · shelf-stable.

Format

Stand-up spout pouch. Shelf-stable (no refrigeration). One pouch per day. Drink in under thirty seconds. Mobile, one-handed.

Function

Synbiotic — prebiotic fiber + live probiotic — the clinically supported gut-health pairing. Not prebiotic-only (Poppi, Olipop). Not postbiotic (a different category entirely).

Three SKUs

- ✓ **Wild Berries** — *Gut + Energy* · Phase 1 (launch)
- ✓ **Tropical Punch** — *Gut + Digestion* · Phase 2
- ✓ **Ginger Pear** — *Gut + Immunity* · Phase 3

COMPETITIVE LANDSCAPE

Pouch × synbiotic: unoccupied lane.

THE INCUMBENTS

Olipop	*can · prebiotic soda*
Poppi	*can · prebiotic soda*
Culture Pop	*can · prebiotic soda*
Suja	*bottle · HPP juice*

PHEEEW'S LANE

Pheeew	**pouch · synbiotic**

Format creates the occasion. Can and bottle are *with a meal*, *at a desk*, *in a fridge*. Pouch is *in your bag*, *between trains*, *on the walk*. Different moment, different customer ritual, different shelf.

Category growth · 2024–2026.

~$45B

GO-TO-MARKET

Commit + parallel market test.

Korean production lead time: 3–4 months. LA farmer's market validation runs in parallel using pre-production samples. Main inventory lands Week 16 for full DTC launch.

WEEK 1

Commit

Wire deposit · place 40K order · pouch procurement

WEEK 3

Deploy

Alex + Dawon fly LA · sample batch air-shipped · market permits

WEEKS 5–16

Test

Farmer's markets · pre-order page live · creator seeding · community build

WEEK 16

Launch

40K lands LA · full DTC launch · scaled markets · subscription engine

TEAM

Founders.

A

Alex Kim

CEO · 35%

Builds. Runs a Korean supplement factory (HACCP-certified) — gives Pheeew direct manufacturing access most first-time CPG founders must buy. Parent HoldCo: All Vital Organics. Prior work building creative infrastructure for a portfolio of Korean food and wellness brands.

J

Jason Ko

COO · 33%

Ships. LA-based operator. Provides US ground infrastructure (housing, car, local network). Owns operations, copy, community, and growth. Direct line to the US customer — where the brand actually has to work.

D

Dawon Kim

CDO · 32%

Makes. Single-operator full creative output — brand identity, v5 website, packaging, video, photography — all internalized. Most CPG brands pay $100K+ agencies for what Dawon produces in-house. Seoul-based designer with three years of CPG brand work.

> *Factory access · full creative production · US ground operations — all three capabilities in-house.*

PROGRESS TO DATE

Completed work.

LEGAL & CORPORATE

- ✓ Delaware C-Corporation · EIN 41-5111005
- ✓ Cap table executed · RSPAs signed · Co-Founder Agreement signed
- ✓ CIIAAs drafted · circulated for founder signatures
- ✓ Section 83(b) elections signed · IRS filings by May 13, 2026
- ✓ Trademark Class 32 · USPTO filing in progress

PRODUCT & BRAND

- ✓ Brand system — name, voice, website v5, design system
- ✓ Product spec — 3 SKUs, formulation mapped to clinical evidence
- ✓ Manufacturer quote in hand — 좋은영농조합법인 (Apr 6)
- ✓ Factory-gate cost $0.99/unit confirmed at 40K MOQ

GO-TO-MARKET

- ✓ LA housing + car secured (Jason)
- ✓ Farmer's market permit path identified
- ✓ 3PL scouted, pre-order page in build

FOUNDER COMMITMENT

- ✓ $20,000 founder capital committed · in bank by mid-May
- ✓ Alex full-time · Jason + Dawon part-time scaling to full
- ✓ Twelve months of prior work with no outside capital

PRE-LAUNCH STATUS

Validated · Open · How we'll test.

✓ VALIDATED

- ✓ **Factory cost** — signed quote from 좋은영농조합법인, $0.99/unit at 40K MOQ
- ✓ **Formulation direction** — three SKUs specified with evidence-based functional stack
- ✓ **Brand resonance** — design system, website v5, voice locked through iteration
- ✓ **Competitive wedge** — zero funded competitors in pouch × synbiotic
- ✓ **Founder alignment** — $20K committed, agreements signed, 4-yr vest with cliffs

⚠ OPEN (WHAT WE NEED TO TEST)

- ✓ **Taste + shelf-life** at manufactured scale (factory small-batch validates before main 40K commits)
- ✓ **Farmer's market demand signal** — does a stranger return a second week?
- ✓ **Pre-order conversion rate** — what % of landing-page visitors actually pay $34 upfront?
- ✓ **Subscription retention** — 25% sub conversion is the target; reality TBD
- ✓ **Creator seeding payoff** — organic content velocity vs paid media

→ HOW WE'LL TEST

- ✓ **Sample batch (500–1,000 pouches)** air-shipped early · tests taste/shelf before main run
- ✓ **10 weeks of LA farmer's markets** · direct customer conversations · repeat-rate tracking
- ✓ **Pre-order page live Week 5** · documented funnel data before main inventory lands
- ✓ **30 creators seeded** · content trail measured against paid ads for CAC comparison
- ✓ **Month 4 kill-switch** · if signal is weak, we reformulate or pivot before DTC launch

> *Parallel commit + test is the pilot. $155K funds the test window.*
>
> *pheeew*

UNIT ECONOMICS

Per-pouch economics at 40K MOQ.

$1.05

LANDED COGS

Per pouch, delivered LA, at 40K MOQ. Real number from factory quote.

$3.40

BLENDED DTC PRICE

Across pack ladder: 10pk, 20pk, 30pk, 60pk, 120pk.

50.6%

GROSS MARGIN

Supplement-band margin from first batch. Expands to 60%+ at Scenario C scale.

4.6×

LTV:CAC TARGET

24-month. Conservative. Healthy for DTC CPG.

> *Sourced from signed factory quote (좋은영농조합법인, Apr 2026) and priced DTC pack ladder.*

REVENUE PROJECTIONS · YEAR 1

Three cases · pouch × price basis.

CONSERVATIVE

$96K

YEAR 1 · $20K MRR AT M12

~100 pre-orders · slow market ramp · 40K units sold across 14 months
= 28,000 pouches × $3.40 blended

BASE (PLAN)

$225K

YEAR 1 · $42K MRR AT M12

~300 pre-orders M3 · full DTC from M5 · 25% sub conversion · 40K fully sold by M14
= 66,000 pouches × $3.40 blended

UPSIDE

$385K

YEAR 1 · $72K MRR AT M12

Press or viral moment · Scenario C graduation M7 · Phase 2 SKU preview
= 113,000 pouches × $3.40 blended

KEY ASSUMPTIONS

- ✓ **AOV $52** — blended across pack ladder (10pk $34, 30pk $99, 60pk $179)
- ✓ **Sub mix 25%** — conservative for CPG supplement DTC (industry: 20–35%)
- ✓ **CAC $35–$50** — lower than industry avg due to creator-native + organic weight

WHAT TRIGGERS THE JUMP

- ✓ **Conservative → Base**: pre-order page converts above 1% from landing · farmer's market repeat rate >12%
- ✓ **Base → Upside**: a single earned media hit (SELF, The Cut) or TikTok moment · sub retention >70% at M3

Each case derives from units × $3.40 blended ASP. No TAM-percentage assumptions.

CAPITAL PLAN

Funding trajectory · angel to exit.

Q2 2026

Angel · This round

$155K · Launch Wild Berries · validate market

Q2 2027

Seed

$1.5–2.5M · Team build · SKU expansion

Q2 2028

Series A

$5–10M · Retail + wholesale · international readiness

2030–2031

Exit

$80M–$200M · Strategic acquirer (Nestle, Pepsi, Unilever, General Mills)

Year 2 onward: business funds its own scale from gross profit reinvestment. External capital compounds across rounds.

TERMS

The ask.

INVESTMENT	$155,000
PRE-MONEY VALUATION	$1.65M
POST-MONEY VALUATION	$1.805M
INVESTOR EQUITY	8.6%
ADVISOR SHARES (FROM OPTION POOL · 2-YR VEST)	1.0%
TOTAL ECONOMIC STAKE AT FULL VEST	**9.6%**
STRUCTURE	Priced round · common stock

Founders: 82.3% post-round. Option pool: 8.1%. Priced round, common stock. No SAFE mechanics, no valuation overhang, no board seat.

Preview

Scope · beyond capital.

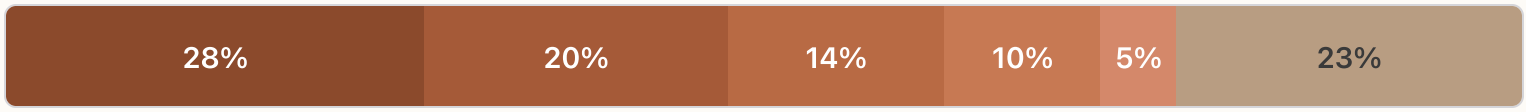
Six competencies Pheeew does not currently possess internally. Board-level financial oversight is a structural gap through Series A.

- ✓ **Monthly financial reviews** — investor-grade books from day one
- ✓ **Banking relationships** — non-dilutive credit, working capital, inventory finance
- ✓ **Financial model oversight** — independent stress-testing, catches errors before VCs do
- ✓ **Board-level quarterly reviews** — risk & opportunity surfacing
- ✓ **Seed round preparation** — clean data room, reference-able financials, institutional reporting
- ✓ **Exit readiness** — structural work over 3+ years that materially moves the acquisition multiple

7–10 hrs/mo · 3+ year horizon · covered via 1.0% advisor share grant.

USE OF FUNDS

Allocation · $175K deployable.



- **28%** Korea production + pouches (40K MOQ Wild Berries · landed LA)
- **20%** Founder subsistence stipends (6 months · below market)
- **14%** Marketing & customer acquisition (Meta / TikTok / creator seeding)
- **10%** Contingency & operational reserve
- **5%** Content production (video, photography, brand film)
- **23%** Legal, insurance, travel, farmer's market ops, compliance, platforms

Founder capital $20K · external ask $155K · total deployable $175K. Line-item budget available on request.

RISK REGISTER

Top risks · mitigants.

RISK 01

Formulation may need iteration after lab testing.

Mitigant: small sample batch tests before main 40K production commits. $4,000 reformulation reserve built into the budget.

RISK 02

Farmer's market demand signal may be softer than base case.

Mitigant: signal flows back during production lead time, not after. 40K units still launch via DTC regardless. Kill-switch at Month 4 for reformulation if needed.

RISK 03

All three founders are part-time at start.

Mitigant: stipend enables partial full-time for six months. Full-Time Threshold is written into the Co-Founder Agreement — triggered at revenue or funding milestone.

pheeew Full 9-item register + reserved budgets available in internal financial model (v4).

PROCESS

Path to close.

1. **Questions & diligence** — follow-up conversations, request any backup material, walk through the full financial model. Budget one to two weeks.
2. **Priced-round paperwork** — standard-form docs prepared by counsel. Stock Purchase Agreement, Board Consent, updated Cap Table. One week turnaround.
3. **Funds wire & stock certificate issued** — Certificate number CS-004 on the Pheeew records. Advisor agreement signed in parallel.
4. **Week 1 kickoff** — first advisor session with you. Monthly cadence begins. Factory deposit wired. The sprint starts.

> *Target close: end of May 2026. Production commit: Week 1 post-close. LA deployment: Week 3 post-close.*
